California Department of Education School Accountability Report Card Reported Using Data from the 2013-14 School Year

Published During 2014-15

Every school in California is required by state law to publish a School Accountability Report Card (SARC), by February 1 of each year. The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- View this SARC online at the school and/or LEA Web sites.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents and community members should contact the school principal or the district office.

Mrs. Shelley Tan, Principal

Principal, Cobb Mountain Elementary

About Our School

Cobb Mountain Elementary School is a school that is proud to consistently be the best performing elementary school in all of Lake County. We attribute this not only to our hard working and dedicated staff of teachers and personnel, but to our committed community who is dedicated to our success. We are a well rounded school that not only values core academic subjects, but goes above and beyond to include instrumental and choral music, an outdoor education program, technology and science, as well as character education.

School Description and Mission Statement (Most Recent Year)

Located in the coastal mountains of Northern California, nestled in a picturesque ponderosa Pine forest, Cobb offers students and parents a safe, nurturing, and pristine educational environment, a talented and dedicated staff, and a track record of excellence in student achievement. As part of the Middletown Unified School District (MUSD), students and parents participate in a school district focused on high expectations for all students, as well as the promotion of responsible and respectful citizenship.

Focusing on individual student needs is the keystone of the instruction program at Cobb. An individualized instruction plan is designed for each student based on STAR data, academic readiness, interests, and learning style preferences. Instruction at Cobb is focused on successful implementation of the Common Core State Standards, differentiated across the curriculum, and focused on research-based best practices in education. The staff at Cobb is committed to California Standards for the Teaching Profession. The students of Cobb consistently demonstrate the highest levels of proficiency on the California Standards Tests. Cobb students are encouraged to participate in and have historically performed exceptionally well on other state and national academic competitions such as Wordmasters, Challenge 24 Math Competition, Science Fair, and the State Spelling and Geography Bees. Academic excellence is acknowledged and respected at Cobb through a systematic student achievement recognition program.

Cobb is more than just a school; it is the cultural center of our community. Students and parents regularly utilize school facilities for Scouts, after school athletics and exercise classes. Whether helping out at the annual Fall Carnival, participating in our music program, or volunteering in the school garden during the summer, you will see a real life example of the old adage, "It takes a village to raise a child."

Cobb's vision is to provide an educational program that focuses on high academic performance while adhering to a well rounded curriculum, in conjunction with our community partners.

Our mission is to develop healthy, active contributing members of our society that are lifelong learners with an appreciation of art, music and the environment.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the Parental Involvement State Priority (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

Opportunities for Parental Involvement - Most Recent Year

Parents of Cobb School are encouraged to be involved in a number of ways, and have always been a valuable asset to Cobb School. Parents who sit on the School Site Council Committee help to set goals for Cobb School based on student data reports. They align these goals to available resources, and monitor them throughout the year. The school's PTO is involved with many of the programs, fundraisers, and even aide positions. It is through the active community involvement that Cobb School has been able to support a part time garden coordinator position, build a new greenhouse, and bring back instrumental music. In addition, community and parent support have given our students in 6th grade an opportunity to take part in a longstanding tradition at Cobb, a week spent outdoors at science camp.

This is the first year in many that Middletown Unified has been able to bring back an instrumental music program to our elementary students after years of only having only a choral music program. Parental and community involvement with this program was crucial in terms of fund raising and communication to the Board and superintendent regarding the need for such a program.

Types of Services Funded (Fiscal Year 2013-14)

Teachers at Cobb School believe in educating the whole child through a variety of enriching curricular experiences. Specific programs offered in addition to the core academic programs include flexible grouping, different learning modalities such as kinesthetic, visual, auditory, etc. RTI (Response To Intervention) based on CST results and teacher collected data have proven results in our Read Naturally program, as well as small group "pull out" support. Teachers come before school to administer intervention programs in math and language arts as well as in class push in supports with classroom aides. Much time and energy have been spent tailoring instruction to meet the new Common Core State Standards. This type of teaching is more project based, group oriented, and requires higher levels of critical thinking on the depth of knowledge scale. Student engagement is higher. Students must defend their thinking with evidence from the text and other sources.

Professional Development – Most Recent Three Years

Cobb Mountain Elementary School, as part of Middletown Unified School District, offers 3 full days of professional development at each school site, as well as eight minimum days for staff development throughout the course of the year. Staff development consists of webinars, administrator presentations, support from the county office, and staff expert presentations.

The primary focus of staff development is the successful implementation of the Common Core State Standards, with a particular focus on writing. Special focus on writing strategies was selected based on the LEA focus on writing, as well as a strand by strand analysis of CST results.

Teachers are supported during implementation throughout book studies and discussions, peer observations, as well as early release time. Teachers are given the opportunity to collaborate with peers from both Cobb School and the other elementary schools in the district. Currently we are focused on the "Core 6: Essential Strategies for Implementing the Common Core," as well as professional development provided by Pivot in the EngageNY mathematics program.
